

# Research Study on Workplace Experiences of People on the Autism Spectrum

Have you been previously employed or are currently working?

Would you be interested in sharing your past and/or present work experiences?

Research is being conducted to better understand employee motivation and working experiences of individuals on the spectrum

**Participation in the study is completely voluntary and anonymous.**

What will the study involve? A choice of:

- Open dialog discussions to specific questions based on your work experience,
- Or a survey questionnaire

Who?

- You are between the ages of 21 and 45
- 13 to 15 years of education (currently in college/university or completed)
- Diagnosed with level-1 (high functioning or Asperger's) and lack of Comorbidity

**Are you interested in taking part of this research?**

If you meet the requirements for this study and are interested in participating, please contact:
